DEPARTMENT OF MINES  
STATE OF WEST VIRGINIA

TO HIS EXCELLENCY,  
HOWARD M. GORE,  
GOVERNOR OF WEST VIRGINIA.

SIR:—In compliance with the mining laws of the State of West Virginia, as amended by the Legislature in regular session, 1925, I have the honor to submit herewith my seventh Annual Report for the Department of Mines for the year ending December 31, 1926, this being the twenty-second report upon the conditions of the coal mines within the state as reported by the several district inspectors.

Respectfully yours,

R. M. LAMBIE,  
Chief of Department of Mines.

CHARLESTON, W. VA.

# PRELIMINARY REPORT

TO HIS EXCELLENCY,  
HOWARD M. GORE,  
GOVERNOR OF WEST VIRGINIA.

SIR:—I herewith submit to you my seventh Annual Report of the Department of Mines, it being the forty-fourth annual report of the condition of the coal industry of the state.

The period covered by this report is from January 1, 1926 to December 31, 1926 and is compiled from the annual reports as submitted by the mine operators. It is condensed in form and only those statistics of general importance and necessary for the information of the public, given in detail.

During the year for which this report is made a general revival of the coal industry throughout the entire state was reported showing a large increase in tonnage as well as an increase in the price of coal at the mines. 849 companies, operating 1,286 mines and employing 120,638 men reported a production of 144,603,574 tons of coal and 591,375 tons of coke, an increase in the coal production of 21,541,589 tons and in the coke production of 87,586 tons.

Below you will find a comparison of the production of coal and coke for the calendar years 1925-26, together with the increase of same.

	1926	1925	Increase	Increase in Per Cent
Coal.....	144,603,574	123,061,985	21,541,589	17.50
Coke.....	591,375	503,789	87,586	17.39

## INSPECTION DISTRICTS AND CHANGES

The inspection districts remained the same throughout the year and were the same as for the year 1925. No changes were made in the inspection force. T. Stockton Gaines and William Pifer, mine rescue directors, resigned and were succeeded by Percy Gillie, who was assigned to the Welch and Matoaka stations, and H. P. Farley who was placed in charge of the Logan and Williamson stations. There was no change in the inspector of sand and clay mines.

## PRODUCTION OF COAL AND COKE

During the year 1926, 849 firms representing 1,286 producing mines, together with the small country and wagon mines, reported a total production of 144,603,574 tons, an increase of 21,541,589 tons, of 17.5 per cent over the previous year. Within this same period the coke manufactured in the state amounted to 591,375 tons which is an increase over the preceding year of 87,586 tons, or 17.39 per cent. Below you will find the estimated value of the production of both coal and coke for the year 1926.

Total value of coal produced (144,603,574 tons).....	\$276,192,826.34
Value of coal used in operating (641,030 tons).....	1,224,367.30

Value of coal used in coke ovens (970,914 tons).....	1,854,445.74
Value of coal shipped from mines (139,566,321 tons).....	266,571,673.11
Value of coal mined by small wagon mines (1,500,000 tons).....	2,865,000.00
<b>TOTAL</b> .....	<b>\$276,192,826.34</b>
Value of coal sold (141,066,321 tons).....	\$269,436,673.11
Value of coke sold (591,375 tons).....	2,714,411.25
<b>TOTAL</b> .....	<b>\$272,151,084.36</b>

The coal produced was disposed of in the following manner:

Produced by small country mines—sold at mines.....	1,500,000
Used in operation of mines.....	641,030
Furnished local trade and tenants from commercial mines.....	1,925,309
Used in coke ovens.....	970,914

TOTAL.....		244,460 Acres

The mines of the state average 195 days for the past year.

### COKE OVENS AND COKE PRODUCED

There were 27 coke plants in the state during the year which reported a total of 4,033 coke ovens, of which number 2,159 were in actual operation, there being 1,874 ovens not in use during the year.

There were 970,914 tons of coal converted into coke which gave a yield of 591,375 tons of coke and gave employment to 701 persons. The increase in the production of coke as compared with the previous year was 87,586 tons. The average price per ton of coke was \$1.59.

### MEN EMPLOYED

During the year 1926 there were employed at the mines and coke ovens within the state an average of 120,638 persons. Of the total number employed there were:

12,789.....	Pick Miners
47,576.....	Machine Miners
5,738.....	Machine Runners and Helpers
35,065.....	Inside Laborers
18,769.....	Outside Laborers
701.....	Coke Workers

Counting the superintendents, mine foremen, fire bosses, store managers, store and office clerks, it would be safe to add five persons per mine employed in these capacities. Basing this estimate on 1,286 producing mines, it would make a total of 6,430 persons, or a grand total of 127,068 employees directly connected with the operation of mines.

The nationalities of the persons employed in and around the mines are given in a tabulated form in another part of this report, and the totals of the various nationalities are as follows:

Americans (White).....	73,601
Negroes.....	24,798
Italians.....	5,094
Hungarians.....	4,082
Polish.....	2,652

Austrians.....	1,170
Russians.....	1,441
Spanish.....	1,073
Slavish.....	1,390
Greeks.....	651
Lithuanians.....	648
Other Nationalities.....	4,038

TOTALS..... 120,638

### SHIPMENTS OF COAL AND COKE

For the year 1926 the operating coal companies of the state reported 133,565,927 tons of coal and 591,375 tons of coke as being shipped over the railroads from the mines in the state. They also reported for the same period 1,000,394 tons of coal as being shipped by river, 910,826 tons of which originated and was floated down the Great Kanawha, and 89,568 tons were shipped on the Ohio River. This does not include the tonnage of fuel consumed by water craft and local river trade. There was no coal shipped on the Monongahela River, and no coke was shipped by water, either on the Kanawha, Monongahela or Ohio Rivers during the year.

### SELLING PRICE OF COAL AND WAGES PAID

During the year 1926 the average price received by pick miners throughout the state for mining run-of-mine coal was 80 cents. The average tonnage produced by each pick miner was 2.024 tons. The average annual wage of pick miners (all pick miners included) was \$1,619.20

The average selling price of coal shipped from the mines of the state was \$1.91 per ton run-of-mine coal.

Coke was sold f. o. b. at the ovens during the year at an average price of \$4.59 per ton.

### ACCIDENTS

There were 574 lives lost in connection with the mining industry of the state, during the year covered by this report. Of this number, 537 were killed inside the mines and 37 outside.

There were 2,854 non-fatal accidents at the mines during the same period 2,503 of which were inside the mines and 484 outside.

During the year covered by this report accidents in which two or more men lost their lives occurred at eleven mines. This included three disastrous explosions, one at Jamison Coal & Coke Company, No. 8 mine, on January 14, in which 19 were killed, one at Crab Orchard Improvement Company, Eccles No. 5 mine, on March 8, killed 19 men and one at Glendale Gas Coal Company, Mound Shaft, on November 15 in which five men lost their lives.

The following is a list embracing all accidents in which two or more men lost their lives, giving cause and date, number killed and where accident occurred:

County	Name of Company	Name of Mine	Date	Number Killed	Cause
Marion....	Jamison Coal & Coke Co.....	Jamison No. 8.....	1-14-26	19	Gas & Dust Explosion

## TONNAGE PER FATALITY

Since the year 1883, the average tons of coal produced per each fatality inside the mines have been 192,932, including the period covered by this report, which is 269,280 tons. At the mines where fatal accidents occurred, there was an average of one life lost for each 137,784 tons of coal produced. The 537 lives lost inside the mines during the year occurred at 382 mines, employing 50,313 persons inside, and produced 73,989,893 tons of coal, while the other mines, at which not a single life was lost inside the mines, produced 70,113,681 tons. During the year covered by this report the causes of accidents in which lives were lost inside the mines are summarized as follows:

Killed by explosions (all forms).....	44
Killed by fall of roof and coal.....	308

The foregoing contains only a summary of the most important information contained in this report, but a reference to the pages following will reveal the condition of the mining industry of the state and show something of its importance in our industrial development.

State Safety Day, dedicated to the lives and health of those employed in the mining industry, was held in Huntington on August 21, 1926. This was the first observance of this kind ever held. The first aid tournament brought together 121 teams, composed of six men each, and these teams were from every section of the state where coal is mined.

The coal companies and manufacturers of mining equipment by their generous support, both moral and financial, made this observance possible. It is the intention of the mining department to make this a yearly event, alternating between the northern and southern coal districts of the state.

In conclusion permit me to express my appreciation for the confidence reposed in me in the conduct of the affairs pertaining to this department.

Respectfully submitted,

R. M. LAMBIE,  
Chief of Department of Mines.
